

As a concerned citizen, I fell it my duty to express my dismay at Sinclair's insistence in airing an anti-Kerry documentary, especially so close to election time. An important part of our cherished democracy is a free and independent media. This is an outrage and a clear demonstration of why we need to strengthen media ownership rules, not weaken them. Sinclair is using the public airwaves free of charge and is legally obligated to serve the public interest, which I believe, is to be as free from political bias as is humanly possible. Thank you
